PROJECTS

Whiteboard

[LIVE](#)

[GITHUB](#)

Build with: Html, Css, NextJS, Redux

Description: Whiteboard app for sketching, note taking, building mind-maps. The most complicated project in term of JS logic. Realized functionality: free drawing, text objects, simple form frames, Connection lines, CRUD | resize | rotate | edit for most objects, undo/redo, selection, hot keys for tools.

CSMarket site copy

[LIVE](#)

[GITHUB](#)

Build with: Html, Css, NextJS

Description: A fully responsive website with animations.

Functionality: animated-navigation, randomly positioned product-photo on hover, background animations, animated modal in phone mode.
